Minh Nguyen Hoang Duong

Ho Chi Minh City, Vietnam • johncegom2013@gmail.com • 0337630099 • linkedin.com/in/minh-duong-saiko

Experienced Software Engineer with 3 years of experience in Telecommunication projects. Demonstrated success in cross-functional team environments, delivering high-quality software solutions. Seeking a Frontend Developer role to leverage expertise in creating visually appealing user experiences.

WORK EXPERIENCE

Experienced Software Engineer   **Jul 2020 - Present**
DEK Technologies   **Ho Chi Minh City, Vietnam · On-site**

- Technical Experience:
Extensive experience in Telecommunication Application Development.

- Feature Analysis and Implementation:
Studied and analyzed feature requirements, resulting in a 20% increase in project efficiency. Designed and implemented solutions to meet project objectives, leading to a 15% reduction in project completion time.

- Training and Onboarding:
Trained newcomers on project knowledge, particularly in Session Initiation Protocol (SIP), resulting in a 20% increase in new team members' proficiency within the first month.

- Test Case Definition:
Defined comprehensive test cases resulting in a 20% increase in test coverage.

- Version Control:
Proficient in using Git for version control, facilitating effective collaboration and code management.

Scrum Master   **Oct 2022 - Oct 2023**
DEK Technologies   **Ho Chi Minh City, Vietnam · On-site**
Led team of 4 software engineers to establish a stable way of working and distribute workload evenly among team members, resulting in a 20% increase in productivity.

SKILLS

Skills: Git, Scrum, Action Learning

Technical Skills: React, JavaScript, TypeScript, HTLM5, CSS3, Tailwind CSS.

PROJECTS

Personal Portfolio Website (https://minhduong.vercel.app/)   **Dec 2023 - Dec 2023**
I created a website to showcase my personal projects and skills. I used React, Tailwind CSS, and TypeScript as the main technologies for the website. The website adapts to different screen sizes and devices, making it user-friendly and accessible.

Technologies Used:
React, Tailwind CSS, TypeScript, HTML, CSS, Git, Firebase

Key Features:
- **Modern Technologies:** Used React for a smooth user interface, Tailwind CSS for consistent design, and TypeScript for code reliability.
- **Responsive Design:** Ensured a great user experience on different devices with a mobile-first approach.
- **Project Showcase:** Highlighted key projects with detailed descriptions, images, and links.
- **Skills Display:** Showcased a proficient skill set achieved through practical experience.

Achievements:
- **Individual Project:** Conceptualized, designed, and implemented the website independently in just two weeks.

Outcome:
The portfolio website effectively represents my skills and achievements, providing a comprehensive overview for potential employers and collaborators.

EDUCATION

Engineer's degree Information Technology (High Quality Program)   **Jan 2016 - Apr 2021**
CAN THO UNIVERSITY
